Advanced RAG Benchmark

Employee Handbook — 10 Questions, Expected Answers & Page Citations

Purpose

Use these questions to evaluate retrieval accuracy, multi-passage reasoning, policy conflict detection, scenario handling, and citation precision in your Retrieval-Augmented Generation (RAG) system.

How to use

First, run each question against your RAG without consulting the answer key. Then compare the generated answer, retrieved chunks, and page citations with the expected answer below.

Scoring suggestion

For each question, check: (1) answer correctness, (2) whether all necessary evidence was retrieved, and (3) whether the cited pages support the answer. A correct answer without supporting retrieved evidence should not automatically count as a full pass.

Questions & Answer Key

1. Does the company offer medical insurance to part-time employees? Compare the employment classification policy with the medical insurance policy and explain any inconsistency.

Expected answer: The handbook appears inconsistent. Page 9 says part-time employees are not eligible for company-paid benefits except the 401(k) plan, subject to the stated hours requirement. Page 26 says the company offers medical insurance to both part-time and full-time employees. A good answer should cite both passages and acknowledge the inconsistency rather than silently resolving it.

2. An employee wants to work flexible hours and work remotely three days per week. What conditions must they satisfy, and what approval is required?

Expected answer: Employees must be present during core hours, 9:30 AM–2:30 PM. They may schedule their eight-hour workday flexibly if their job permits it and their supervisor approves. Telecommuting is permitted up to three days per week with supervisor approval, and not all roles qualify.

3. An employee is unexpectedly sick and cannot attend work. What notification procedure should they follow? Check whether the handbook gives consistent instructions about leaving a voicemail.

Expected answer: Page 12 says to contact the immediate supervisor as soon as possible, no later than one hour before the scheduled start time; if unavailable, contact a manager. A voicemail should include a callback number. However, page 31's separate Notification Procedures section says leaving voicemail or a message with another staff member does not qualify: the employee must personally speak with the supervisor or manager. A good answer should surface this difference rather than present the instructions as universally consistent.

4. An employee declined medical coverage when hired and later gets married. Can they enroll outside open enrollment, and what deadline applies?

Expected answer: The employee may qualify for special enrollment following marriage, provided they apply within 30 days of the qualifying event. The handbook also says employees who initially decline coverage may request enrollment during open enrollment.

5. An employee wants to report sexual harassment but their immediate supervisor is the alleged offender. Whom should they contact, what happens next, and are they protected against retaliation?

Expected answer: The employee should report the incident to Human Resources; the harassment section specifically directs allegations against one's own supervisor to the Director of Human Resources. The company says complaints will be promptly and thoroughly investigated, and retaliation against employees who report in good faith or assist an investigation is prohibited.

6. An employee has completed only four months in their current role but wants a transfer. Is this allowed, and what exception does the handbook provide?

Expected answer: The normal eligibility guideline is six months of satisfactory performance in the current job. However, management may authorize a transfer within the first six months if it believes an exception is in the company's best interest.

7. Can the company monitor an employee's internet activity and email communications? What restrictions apply to personal use and downloading software?

Expected answer: Yes. The handbook says the company may monitor and log internet activity and examine electronic connections and communications. Internet access is primarily for work or approved educational activities, although incidental personal use is permitted if it does not interfere with work. Employees may not access or distribute unlawful or offensive material, must respect intellectual property rights, and must obtain approval before downloading software.

8. The office remains open during severe weather, but an employee cannot safely travel to work. How does the handbook say the absence should be handled? Contrast this with an official or company closure.

Expected answer: If the office remains open and the employee cannot attend because of inclement weather, the handbook says the absence is charged first to personal/sick time, then vacation time, and finally unpaid time. If the company or government closes the facilities, employees are paid for the day. The handbook also emphasizes using judgment about personal safety.

9. How must an employment dispute be handled if mediation fails? Explain the next step, how costs are allocated, and whether the decision is binding.

Expected answer: The parties first attempt mediation with a mediator from the American Arbitration Association or a similar organization. If mediation fails, they proceed to arbitration. The company and employee split the arbitrator's cost, while each pays their own attorney and related fees. The arbitrator's decision is final and binding, subject to the handbook's stated provisions concerning court enforcement and the company's right to seek certain relief.

10. Does receiving the employee handbook guarantee employment for a fixed period? Explain the at-will policy and identify the exception for a written employment agreement.

Expected answer: No. The handbook says it is not an employment contract and does not guarantee employment for a fixed period. Employment is at will, meaning either the employee or the company may terminate the relationship at any time for a lawful reason. The stated exception is an employment agreement that supersedes the handbook; the handbook says a guaranteed-duration agreement must be in writing and signed by the President and employee.
